See, that's where you're wrong, retard.
If you had paid attention in junior high, you would already know that the law enforcement that should be coming into play with these riots is the city's.
And if the NG were to be called out, that's the responsibility of the state governor.

Trump can only call out the NG if the entire country is in danger, and these riots are only endangering a few blocks at a time, in specific cities.
It's the cities not doing their jobs, and in some cases, like Portland, actually enabling the rioters.

Democrats own all of this, this is their baby & their fault.

That's the point, though.
This is what the citizens of Portland voted into office, they must agree with what's happening, so it's nothing more than self-determination.

Those that disagree, are free to leave, as always.
Portland then becomes Detroit, through the actions of its own elected officials.

Are any of you liberal fucktards aware that it's kind of obvious that COVID-19 just happened to "get to America" right after the bullshit impeachment failed? The Dems or liberals released this bullshit virus, politicized it, and according to Obama now, COVID-19 is racist?! Democrats and China working together to destroy this country to bring in the new world order. A fucking coin shortage all of a sudden? No, they're taking away actual American money. The first Amendment is Dead. Very fucked up to live in a country were people who say All lives Matter lose their jobs!! BLM is such bullshit, and once Trump wins this election, BLM and antifa retarded fucks are ruining their own cities, come down South with that bullshit, your lives dont matter, traitors lives dont matter. I wasnt racist before, but BLM and liberals pushing race into everyone's face, and telling everyone only Black lives Matter has made me not racist but intolerant of BLM because its bullshit. Everyone's lives matter!!! Fuck you BLM and fuck you antifa, and especially fuck you fake liberal assholes!! God Bless America

>trump is going to win by being such a faggot cuck that he sits back while the country is destroyed
Actually that adds up to a huge loss. Not even close.

Example: a murderer commits a heinous murder, and the public demand justice. The evidence is sickening, and overwhelming, and the public wants justice for it.
Instead of commencing with justice, the president ensures the murderer escapes justice.
GUESS WHAT? THE CITIZENS WILL END UP HATING THE PRESIDENT MORE THAN THE MURDERER.

The bible talks about this. When those in power commit themselves to protecting criminals, the citizens turn their anger to those in power.

>rioters destroy cities
That makes them the bad guys
>trump decides to do nothing about it, allowing riots to go on for months
Now trump is the bad guy

It is human nature. As a kid, if a teacher got you in trouble for something you did to another kid, but the other kid gets away with doing something worse to you, your anger will turn to THE AUTHORITY FIGURE who allowed the injustice.

>dems are bad for destroying cities
True
>trump does nothing, and allows everything to keep getting worse
Now trump is the bad guy

>if you let the country burn and you do nothing because you're incompetent, YOU WIN!

It shouldn't be so hard for some of you to grasp what's going on, so you're either stupid or working on behalf of the enemy.

If Trump just sends in the troops without being asked to and even against the local government's wishes, the left gets all the optics they need to use against him and hand the country to Biden with a bow on it.

It's infuriating to watch the destruction go unanswered, but it's on the city and state to address it.

When things get to a point where the fools who live there start demanding a end to it, the state will be forced to ask for that assist.

Then like magick, the bad optics turn good. Anything else will only feed the mob.

This is a Marxist Insurgency

Prior to launching the street riots, they had to have certain things in place

Infiltration of:

o Local government
o Police
o Education system
o District Attorney's office

Marxist Revolutionaries are now in position at these agencies. They are MOLES. They would have never launched this without people in place. This is a well-planned revolution.

Appealing to any government agency in Portland for help is pointless. You'd be asking Marxist to help you with a Marxist problem. Not happening.

Next the radicals are now moving into the suburbs and rural areas. They will move to infiltrate the local gov, police and schools there and then the county is theirs by putting a few key people in key spots.

Look what the mayor of NYC did. He destroyed New York intentionally. That was his goal and he did it.

No, it is essentially a beach head. Most Marxist insurgent movements are located near the sea so they can be resupplied as this grows. They have exhausted the local police and are moving to control that city. No one opposes them locally, if they do violence and intimidation ensures.

Soon the most aggressive fighters of Antifa will be organized into active military armed units.

Anyone who opposes the revolution will be dealt with by them with escalating violence and intimidation.

Of course they are not telling anyone this is a Marxist insurgency, they are selling it as a racial justice movement, which people support.

Imagine being this delusional.
>only democrats care that cities are being destroyed!
100% false.
Who do you think has to pay for the damage?
Answer: honest, decent taxpayers

Who is getting assaulted by these people?
Answer: honest, decent, taxpayers

Who is hurt the most?
Answer: honest, decent taxpayers

You are seriously mentally ill and delusional if you think everyone (or almost everyone) is ok with this.

Trump has probably lost 2-3 million voters in the last few months. He's virtually guaranteeing Biden will win

I would assume the killings have already started. Usually it starts with beating of those who don't obey or resist the brainwashing.

It escalates from there.

Once some psychopath gets in charge he or she just kills off anyone who attempts to get in the way of the their will.

I would
It'd take even a shitty detachment of the Air Force Security Forces that have done nothing but wide ID cards for years less than a few hours to clear everybody out of there.
As soon as someone throws a bottle, they get the all clear to shove everybody out. Repeat until they get tired of tear gas inhalation

You are playing into their hands as there goal with this constant harassment of the police is to tie-down lots and lots of officers to one location. This is expensive a consumes limited "man-power" And this is working.

What is needed it intelligence officers.

Just identify the Marxists, especially the well educated ones and round them up.

That will end this.
